# 1. Qualitative Information

# (1) Business Performance

#### a. General Summary of Results

The Japanese economy continued to recover during the cumulative consolidated third quarter as corporate earnings rallied, while improving employment and payrolls supported a modest recovery of personal consumption. The global economy maintained a gradual recovery, with strong performance in the economies of China and the emerging economies, a moderate expansion in business conditions in the United States, and other positive factors.

In this environment, the Company recorded domestic sales of \$297.06 billion (+8.1% year on year) for the cumulative consolidated third quarter. Overseas sales, impacted positively by the relatively weak yen compared to the year-ago period, rose to \$296.5 billion (+13.0%). In total, the Company recorded \$593.56 billion in net sales, an all-time record and a 10.5% improvement over the first nine months in the prior fiscal year.

The Company recorded gross profit of \$77.9 billion, an increase of 14.2%, in conjunction with higher sales. Operating income amounted to \$20.31 billion, an increase of 74.2% year on year. This increase was mainly due to a decrease in retirement benefit expense in connection with the amortization of actuarial differences. Ordinary income amounted to \$22.11 billion (+73.6%), while profit attributable to owners of the parent amounted to \$14.63 billion (+65.3%). All profit indicators marked record highs for any cumulative consolidated third quarter in the history of the Company.

#### **b.** Segment Summary

#### **Functional Materials**

The Functional Materials segment recorded higher sales in both domestic and overseas markets.

The Performance Chemicals business recorded significantly higher sales due to improved sales of coating raw materials and urethane materials, spurred by strong automotive production in Japan and overseas. Another contributing factor was a jump in sales associated with the Company's acquisition of a distributor in the United States.

The Speciality Chemicals business recorded higher sales overall. Sales of fluorochemicals, electronics chemicals, and raw materials for industrial oil solutions were higher for the semiconductor and other electronics industry in Japan. Overseas, sales were higher for electronics chemicals and other products.

#### **Advanced Materials & Processing**

The Advanced Materials & Processing segment recorded higher sales in both domestic and overseas markets.

The Colors & Advanced Processing business recorded higher sales as a whole, driven by growth in plastic resins for industrial and packaging applications, dyes/additives, and digital print processing materials in Japan. Overseas, strong sales of print-related business products contributed to higher overall performance.

The Polymer Global Account business mainly sells plastics to the office equipment, appliance, and video game device markets. The sales of those business were higher overall, driven by growth in Japan, Greater China, and ASEAN.

As a result, sales for the segment amounted to \$201.21 billion, which was a \$19.86 billion (+11.0%) increase compared to the cumulative consolidated third quarter of the prior fiscal year. Segment operating income grew \$1.55 billion (+38.7%), reaching \$5.58 billion for the cumulative consolidated third quarter.

The Electronic Chemicals business recorded significantly higher sales due to growth in photolithography material and equipment-related sales, as well as strong performance of formulated epoxy resins for the electric and electronics industries.

The Electronic Materials business recorded lower sales compared to the same period in the prior fiscal year due to lower performance in processed materials caused by smartphone model changeovers.

As a result, sales for the segment amounted to \$100.73 billion, which was a \$4.46 billion (+4.6%) increase. Segment operating income grew \$2.61 billion (+55.9%) year on year, reaching \$7.28 billion for the cumulative consolidated third quarter.

# Automotive & Energy

The Automotive Solutions business recorded higher sales, driven by strong performance in our resins business in Japan, Greater China, and ASEAN.

As a result, sales for the segment amounted to \$96.47 billion, which was a \$13.93 billion (+16.9%) increase compared to the cumulative consolidated third quarter of the prior fiscal year. Segment operating income grew \$1.16 billion (+121.1%), reaching \$2.12 billion for the cumulative consolidated third quarter.

The Beauty Care Products business, which includes sales of cosmetics and health foods, recorded lower sales, driven down due to weak performance across all product categories.

As a result, sales for the segment amounted to \$64.48 billion, which was a \$1.68 billion (+2.7%) increase compared to the cumulative consolidated third quarter of the prior fiscal year. Segment operating income grew \$720 million (+25.4%), reaching \$3.56 billion for the cumulative consolidated third quarter.
